# Polycom® MSR Series

## Next generation Skype Room Systems bring the Skype for Business experience to every meeting

Polycom® MSR Series is the next generation Skype Room System that combines the familiar Skype for Business experience on a touch console with Polycom's leading audio and video peripherals that enhance the overall meeting experience. Designed to deliver the utmost simplicity and ease-of-use, users start meetings with one touch join and take control of the meeting with little training needed.

The center-of-table console is powered by Microsoft® Surface Pro 4 and encased in a Polycom-designed MSR Dock. The console delivers intuitive touch-based operation with familiar Skype for Business interface, expanded I/O for display connectivity, certified audio and video peripherals, and network connectivity. Polycom MSR solutions come in multiple configurations to meet different room requirements.

## Benefits

- **Familiar Skype for Business experience**—Familiar user interface and the Skype for Business functionality make it easy for everyone to use

- **Powerful audio and video experience**—Industry-leading Polycom voice and video solutions enhance overall meeting experience in the room and for far-end participants
