

UAT

CORPORATE PROFILE

Ultra Active Technology Limited is the industry leader with core businesses in video conferencing, audio visual collaborations, IP network, video streaming and boardroom facilities.

Ultra Active Technology's history begins in July 1997. From TeleVyou in the early days to Polycom first introduced to Hong Kong in 1998, Ultra Active Technology is recognized as the most reliable video conference solution provider. In the year 2000, to cope with the rapid business expansion, we move to the Hong Kong Convention and Exhibition Centre, to offer our customers with seamless customer services with the most advanced IT system, FLP.

We reach our 5th Anniversary in 2002 and continue to accomplish more major projects. During the SARS outbreak, we realize our social responsibility by providing support to the Department of Health.

We bring into Hong Kong the first Polycom high-definition video conferencing experience. Being the pioneer in the industry, we provide wide range of collaboration series, from executive solution to mobile video conferencing. PresencePro series is the truly life-like telepresence environment for senior executives, with the best high-definition voice, video and content sharing. Our set-top MegaPro mobile video conferencing, truly integrates into one mobile solution, making the conference room slim, and elegant. To ensure secure communication, all of our video conferencing equipment is supported with AES encryption standard, which is also adopted by the US government.

Ultra Active Technology provides the best audio visual collaboration solution and boardroom equipment. With more than 2,000 cases of project experience, we are a premier provider with dominance in major video conferencing solutions. We have wide coverage of customers from different industries: banking and finance, listed companies, hotels, the Constitutional Department of the HKSAR, Judiciary, hospitals, universities, to small and medium sized companies.

At Ultra Active Technology, we are dedicated to our customers and employees, to the quality of products and services, and to contributing to the society. These core values are central to our spirit.

As a company to fulfill the social responsibility, we are keen to help the local community by engaging interns for the summer, supporting charitable commitments and promoting culture and sports.

Our staff are our biggest asset. We are committed to looking after our staff by providing overseas

training, team building activities and education subsidy.

We challenge to insist on Quality, Value and Simplicity. All messages come through; a world without boundaries has come true. UAT, providing with the best

UAT HISTORY

From Start-Up Software Vendor to AV Market Leader

Over the course of nearly two decades, UAT has emerged from a small, family size company to a first-class corporation. Today, UAT is a prestigious market leader in collaborative audio and visual solutions provider. The company now provides AV products and services to multinational companies, listed companies, banks, major finance institutes, local government departments, universities and hospitals. UAT's commitment in providing with the best continues our future success.

1989 to 1996 Former UAT

Tony Cheung in 1989 founded Oasis Systems Limited together with Sultan Rehman. (Sultan is a world-class architect programmer, multiple patents holder and co-author of 'XML' published by Microsoft Press.) Oasis vision is to develop application software for real-time business processes. The year 1990 laid the first milestone: the HKSA Project, HKSA now being known as the Hong Kong Institute of Certified Public Accountants. HKSA enforced the then history ever top confidential statutory regulation called 'Practice Review' and it was consulted, developed and implemented by Oasis. Meanwhile, in the early 1990s, with Belgian capital support, another family size of company was formed to import IT equipment from overseas.

1997 UAT and Video Conferencing

The restructuring and merging of resources of companies emerged the Ultra Active Technology Limited. Their vision: explore other IT applications, not just computer hardware and software. UAT tapped the video conferencing market and started to focus on VC business and source different brands.

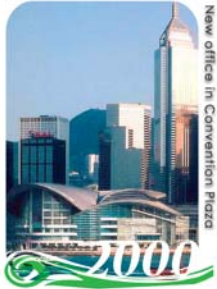

1998 TeleVu VC

UAT introduced 'TeleVu' VC equipment to Hong Kong and this product attracted adoption mostly by family and small to medium size companies.

1999 Polycom Distributorship

UAT acquired the distributorship of Polycom which is now the largest market share in the VC market. The customer base started to grow and cover large and multinational corporations.

2000 Expansion and Re-engineering

UAT moved to a larger office in the Convention and Exhibition Centre. All the team roles and work processes were re-defined and streamlined in order to provide the top most quality services to our customers.

2001 Paperless, More efficient and Fully Automated

UAT selected IBM Lotus Domino/Notes to standardize all our business applications and IBM Lotus Domino is a worldclass middleware with which UAT further developed our in-house enterprise management system called Finance, Logistics and Profession.

2002 UAT 5th Anniversary

During the SARS outbreak, UAT worked along with the Health Department to combat SARS by providing VC equipment and sending engineers for VC support to maintain uninterrupted communication among Departments.

2003 Corporate Citizen Caring Hong Kong

During the SARS outbreak, UAT provided support to the Health Department to combat SARS by providing VC equipment and sending engineers for VC support to maintain uninterrupted communication among government Departments.

2004 Rapid Growth

To serve well every of the UAT customers, UAT keeps on improving the service quality to handle complex service calls and AV projects. With this and other innovative integrations, UAT sees rapid growth. In the same year, UAT completed several major projects, namely Goldman Sachs, Trade Development Council project in the PRC, Chinese Universities and Civil Aviation Department.

2005 Corporate Responsibilities

UAT participates more in the communities by providing interns to college, IVE and university students. Besides, UAT also actively sponsors a number of sports activities in Hong Kong.

2006 Innovative Integration

In this year, UAT introduced the SlimPro and MegaPro series which account for a magnificent acceptance by the customers. In the fourth quarter of this year, UAT launches PresencePro series to let our customers experience life-like video conferencing.

2007 High Definition Audiovisual Projects

In 2007, UAT markets a full range of High Definition Polycom products and in the same year UAT acquires admirable projects, e.g. the PricewaterhouseCoopers project, Lehman Brothers project, China Travel project, Constitutional Department project and Astec project. UAT's VC project expansion takes a leap forward.

2008 Deluxe Boardroom

UAT moves to a larger office in the same building, Convention Plaza, a prime location allowing us to provide quick services to premium customers. With over a decade's experience, we provide glamorous boardroom design with a combination of the latest AV equipment, lighting and video conference. UAT is enthusiastic in supporting more charitable and sports events.
